A Rebel Night Attack-Five Men Captured -Arcest of Postmaster Scars - Marriage of Gen. Saxtou-Sale of the Plantations -A Desperate Negro Expedition Arrival of Rebel Deserters - Describes of Savannah - The People Rendy to Rise cannot yet fix the day for opening the cannot. on Their Leaders.

Late last night our slumbers were disturbed by the long roll calling the troops in and around camp to arms, and giving us to understand that at last semething of a belligerent nature was on the tapis by the soldiers who have been so long in complete idleness on this island. All sorts of surmises and conjectures can rapidly through the long barracks and sleeping-rooms at Hilton Head, and every one wondered what was the cause of the sudden alarm. It was soon learned, however, that as usual, a few bold Rebels bad stirred up all this hubbub, had glently, to the number of seventy heavily-armed men, stolen up Skull Creek from the main land, sprung ashore at Spanish Wells, where we had a signal station, captured one of the signal officers and five privates, then set fire to the building and hastily returned to their boats and rowed back to turn regarding Slavery.

Several amendments were discussed, and Mr. R.'s the point from which they started. One officer, one private, and from four or five negroes managed to escape and reach headquarters. Before, however, pegroes came in they extinguished the flames and saved the mansion at Spanish Wells from destruction. Below I hand you an official account of

The sale of the plantations in control is still progressing.

Sixty thousand acres of the best pine and oak land have been purchased by the Government. Between twenty and thirty thousand acres have been purchased by the civilians residueg in Beautort. A small party of negroes who have been enterprising and provident since they obtained their freedom, in and provident since they obtained their freedom, incre. It is a great pity that more of these unfortunite creatures were not able to purchase small lots nate creatures were not able to purchase small lots of land.

The Result of Town Meetings.—Allegany Angelica. C. Dautramont, Amity, Slias Richardson, Affed.—Witter, Andrew, H. W. Boyd; Ailen, W. Wilson, Beifatt, C. Jennings, Birdsell. I. S. Stedman; Burns, Dr. Dimnick, Boilvay. H. B. Burdiek; Clerksville, W. C. Southworth, Centerville, J. Couch, Clerk, R. L. Colwell; Genese,

Fig. 1. S. Philbrick of Boston has been the heaviest purchaser thus far, and has invested about \$15,000 in land and agricultural implements.

Some of the Northern papers having alluded to the some of the Northern papers having alluded to the some of the land of the land

In land and agricultural implements.

Some of the Northern papers having alluded to the fact that The Free South, a new spaper published in Beaufort, and owned by one of the Florida Tax Commissioners, had presented a bill for advertising lands in but four successive issues of the paper of nearly \$7,000, I have been requested to state that it should be distinctly understood by the public that the South Carolins Tax Commissioners—Judges Smith, Worden, and Brisbane—are in no way implicated in the transaction, that they have protested against its payment, and repudinte the alleged contract. It strikes almost every one here that \$7,000 for an amount of printing a New-York daily woold charge but \$300 for is rather exorbitant—especially so, when it is considered that the owner of the paper is an officer of the Government upon a salary of \$3,000. It should be remembered, too, that the publishers of The Free South have had no rent to pay, having occupied one of the Rebel mansions in Beaufort, and no transportation, having brought their printing materials upon Government transport, and but light wages for their journeymen, having had detailed for their especial service soldiers from the ranks of the army stationed in the vicinity. To offset all these privileges, it is urged by the publishers that they have been and still are in constant danger of having their property captured by the Rebels, and that they should be allowed more liberal rates in consequence. This is the only argument I have beard advanced in their favor—a very poor and weak one is the common sentiment.

The fleet of gunboats and transports is still in-

Charleston, come within the lines to-night. In order to rea h here safely they have madelucircuit of more than 200 miles, and have been nearly a month more than 200 miles, and have been hearly a month on the way. They were regged and filty beyond description, being literally covered with mud and foul dirt from head to foot; more disacressing looking objects I never saw. They have given valuable information to our Generals, which they have acted

Six stout negroes left Beaufort hast evening upon one of the most during enterprises of the war, and which, it successful, will be of the greatest importance to the army before leaving this port. These negroes, upon being told what was wanted of them, although knowing that the enterprise would be attended with the greatest danger, and would require the utmost skill, volunteered their services, and upon being furnished with arms and implements immediately started upon the expedition. By to-morrow night it will be known whether they have all been killed or returned to camp successful. If any anti-Administration man is still skeptical with regard to the value of negro services in this war, I would recommend to him a trip to and a short sejourn in the Department of the South. I doubt very much if there are six white mon in this Department who would have volunteered to go upon the expedition those negroes started upon last might.

Three describers from the let Georgia Volunteers, Col. Olmstead, came within our lines at Fort Polas-Six stout negroes left Beaufort last evening upon

Three deserters from the let Georgia Volunteers, Col. Olmstead, came within our lines at Fort Polas-hi this morning. They represent the inhabitants of Savannah to be in daily expectation of an attack, and to be in a most fearful state of alarm; that all and to be in a most learned state of manning the wealthy citizens have closed their mansions, packed up their furniture, and left the city; that the poer people are in an almost insurrectionary state and will hoist the stars and stripes the moment our and will hoist the stars and stripes the moment our of Courtland et 7, 10, a m, 6, 7, 115 m. Sunday, 7; p. m. of Courtland et 7, 10, a m, 6, 7, 115 m. Sunday, 7; p. m.

forces approach the city.

They estimate the number of troops in and around They estimate the number of troops in and around Savannah at 25,000, but say that two-thirds of them are conscripts who were never under fire and know Savannah at 22,000, but say that two-thirds of them are conscripts who were never under fire and know almost nothing of military duty. They give the number of forte and batteries and their armament as follows: On Fort Lee, 7 guns and 3 mortars; Fort Jackson, 9 guns; Naval Battery, 7; Lawton's Battery, 7; on Hutchinson's Island, 3; Fort Boggs, 15 guns and 2 mortars; Costai's Bluff, 2 32s; Fort Bariow, 7; Bay Battery, 2 8-meh and 2 mortars. All of these batteries and forts command the river. In addition to this formidable defense, they have two floating batteries, the Georgia and Atlanta, each of which has four 8-inch rifled cannon.

The powerful eteam-ram Savannah, covered with five inches of iron plating, will be finished next week. She carries four 10-inch columbinds.

In our attacks with the Monitors upon Fort Me-Allister, they say we dismounted one gun, wounded two men, and killed Maj. Gallagher, the commander—that the Rebels were very jubilant over what they called a repulse of our whole Monitor fleet. No laws were lost in the destruction of the Nashville, Hardelanters, Department of the Nashville, Hardelanters, Department of the Nashville, Hardelanters, Department of the necessities of the service, and until further instructions are received from Washington, it of the arrival and their armament as follows: To washington, it ovalled to the Washington. It ovalled to the Washington. It ovalled to the west, by Jersey, foot of 12 mm.

of the Winter term took place in the Hygienic Hall on Tues-day evening, March 17. Addresses were made by Professors Trail, Lines, Sizer, and Allen, and selected theses read by Puery Heald of Wilmington, Del., Mrs. Lydia A. Strebridge Cortlandville, N. Y., and Jerome Kidder of New York.

The Twenty-first Ward Loyal National League

danger of having their projectly captured by the Rebels, and that they should be allowed more liberal rates in consequence. This is the only argument I have beard advanced in their favor—a very poor and weak one is the common sentiment.

The fleet of gunboats and transports is still increasing, but no signs of an immediate movement beyond those already indicated can be seen. It may not be improper to say that delay in this instance seems to be adding to our strength, and that when we do move it will be with every prospect of success. But if not yet aggressive, the Department of the South is by no means idle. The rost of infinite motion, the sleep of the spinning-top pervades every portion of it.

The marriage of Gen. Saxton to Miss Thompson of Philadelphia is the most pleasant subject of social gossip of the week. Flags were hoisted and gons fired in the beautiful harbor at Beaufort vesterday morning in honor of the event. The happy couple are occupying the elegant mansion of the Rebel Hayward.

Three slaves from the Drayton plantation, near Charleston, came within the lines to-night. In order to reach here within the lines to-night. In order to reach here within the lines to-night. In order to reach here within the lines to-night.

EXCITING NEWS FOR THE DRAY.—An instrument called Dr. Von Eisenberg's Air Passage Expander and Regulator, a gigantic machine, weighing nearly five hundred pounds, about five feet in hight, a most wonderful apparatus for restoring sight and hearing, has just arrived for Dr. Von Eisenberg, the celebrated Coulist and Aurist, and will be on exhibition at the Doctor's office, No. 816 Broadway, for a few days previous to its use. The instrument is constructed decidedly on the most scientific principles. To give a detailed description would require a greater space than we can new spare. Our Ocalist and Aurist seems to do everything in the line of his profession on a gigantic scale. The new instrument for restoring hearing to the deaf and sight to the blind is so constructed. that it cannot fail to open the most obstructed air pass ges. His new consulting rooms, No. 816 Broadway, are correspond-ingly magnificent, and his practice as Aurist and Occilet large

From The New-York Evening Express, Feb. 14, 1863. SENSATION ANONG THE DEAR.—The unrivaled skill of Dr.
Von Eisenberg, the far-famed Coulist and Aurist, of No. 816.
Broadway, has made quite a sensation among the Deaf and
Blind by his wonderful cures, which attract the Deaf, Blind, and those suffering from Chronic Catarrh, from all parts of the Union to his office. The number of his certificates of really wonderful cures swells daily. For the benefit of sufferers, we submit the following, which requires no comment:

submit the following, which requires no comment:

NRW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, end partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rombine noise in the head, for which I have been treated by a most eminent prectitioner in the city witnout the slightest relief.

I consulted Dr. You Eisenberg, but I must candidly say that I had no faith in his success when I dit so, it, a therefore, due to Dr. You Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivised reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restering the hearing are, in my opinion, certain.

JOHN TAYLOR.

No. 30 Pearlest, New-York.

New-Yoak, July 19, 1962.

This certifies that my mother has been for some time difficted with parrial dearness, sufficing from pain and rumbling noises in the head together with other indications of a total loss of hearing. Dr. Von Eisenberg removed from her sara a great quantity of matter, together with congulated blood, real learning her instantaneously, and all without pain. It is with grateful thanks that I give this teatment to his skills, CARROLL J. POST, No. 28 South-st.

No. 178 MERCHUST., NEW FORE.

J. E. VON EISENBERG, M. D.—Dear Doctor: I have been afflicted with total dearness, and was induced to pay you a visit. No one can financine my delight when, after one operation, my hearing was suddenly, and without pain, restored to me, for which I feel very grateful. After being totally deal aimost abut out from the pleasure of using so necessary a sense—to have it returned, and to hear so distinctly, reflects great credit on you for the immense amount of sail you possess. I beg to thank you for what I can so truly appreciate. I am, Sir, your obedient sevyant.

EDWARD TEMPLE HARRISON.

NEW-YORK, Nov. 6, 1862.
DR. VON EISENBURG-Dear Sir: Before taking leave DR. VON EISENBERG-Deer Sir. Before taking leave of you, after your most successful operation on my ear, allow me to express my sincere thanks that, by your selectific surgical performance, I am enabled to hear distinctly, and sujery a pleasure of which I have long been deprived—over a year. May you be rewarded by being enabled to perform many similar, to benefit other sufferers, and to your own emplament. Allow me to present my kindest regards, and assure you of my grateful remembrance. Respectfully.

A. McDONALD REYNOLDS, Captain Marines, United States.

Naw-Yoak, May 17, 1872.

I have much pleasure in being able to certify that I have suffered for a long time from Solorotitis, and nearly complete ites of sight. I have consulted a great many, as well as visible to institutions, not only evident beneath, but may case west given up as inclusable. I despaired of ever recovering mysight, until nearling of Dr. Von Rienberg's great ones, I destermined to place myself under his care as a sattlesource. It resulted in a complete dare. From the shiffell treatment great care and attention which I experienced from the better, I have no hestiation to recommending all those suffering from diseases of the eye to place themselves under Dr. Von Elsenberg's care, with a certainty of being completely cured. I shall be happy to been personal testimony.
